MOHD TALIB

CAD Designer | SolidWorks | Revit / BIM | AutoCAD

Delhi, India | +91 8787039851 | talibcadd@gmail.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Mechanical CAD Designer with 2+ years of experience in drafting and 3D modeling using SolidWorks, AutoCAD and Revit. Released 500+ production, assembly and part drawings with GD&T, BOMs and revision control, working closely with design and production teams. Also spent a year training students in AutoCAD. Diploma in Mechanical Engineering.

SKILLS

CAD Software: AutoCAD (3 years, including training), SolidWorks (1 year), Revit / BIM (1 year)

Design & Drafting: 3D Part & Assembly Modeling, 2D Production Drawings, Sheet Metal & Fabrication Drawings, Structural Detailing, Reverse Engineering

Standards & Documentation: GD&T (Flatness, Parallelism, Position), ISO Drafting Standards, BOM Preparation, Revision Control, PDF Markup & Redlining

Other: MS Office (Word, Excel, PowerPoint)

PROFESSIONAL EXPERIENCE

CAD Designer, GK Industries 2025 – Present

Mechanical Design & Drafting Department

- Model parts and assemblies in SolidWorks and check fit and function before drawing release, so problems are caught before production.
- Build Revit models for structural and mechanical layouts and coordinate them with other disciplines.
- Prepared 500+ 2D production, assembly and part drawings in AutoCAD from design inputs and client specifications, holding dimensions and tolerances accurate.
- Apply GD&T (flatness, parallelism, position) on component drawings to meet manufacturing and quality requirements.
- Maintain BOMs, part lists and revision logs so every engineering change can be traced.
- Resolve drawing discrepancies with design engineers and production teams, then update and reissue approved changes.
- Review shop-floor drawings before final release and correct errors before they reach production.
- Converted legacy manual drawings into standardized digital CAD files for the department archive.

AutoCAD Trainer (Part-time) 2025

- Taught AutoCAD 2D drafting and basic 3D modeling to students, from basic commands to dimensioning, layers and plotting.
- Prepared practice drawings and checked student work for dimensional accuracy and drafting standards.

EDUCATION

Diploma in Mechanical Engineering 2025

CERTIFICATIONS

AutoCAD Certified

LANGUAGES

English, Hindi, Urdu
